HELLO

I'm SHAIK RAFI

A Professional

WEB DEVELOPER

ABOUT ME:

"Hello, I am SHAIK RAFI, currently pursuing a Bachelor's degree in *Electronics and Communication Engineering (ECE)* as part of my B.Tech studies. I have consistently excelled in academics, demonstrating a strong aptitude for various subjects. One of my passions lies in coding, where I have acquired proficiency in languages such as C, Python, and Java. My love for technology extends to *web development* , where I have gained valuable experience. Alongside my technical skills, I possess the ability to handle challenging situations with composure and tackle complex problems with a strategic mindset. I am constantly seeking opportunities to enhance my knowledge and contribute to the field of technology. My determination and adaptability allow me to thrive in dynamic environments, making me a valuable asset to any team or project. I am excited to explore new horizons and continue making a positive impact in the world of technology."

- Name: SHAIK RAFI
- Date of Birth: 19/07/2003
- Qualification: Bachelor of technology
- Specification: Electronic and Communication Engineering(ECE)
- Mail Id: shaikhrafi19343@gmail.com
- Mobile Number: 6300431192
- Location: suddapali donka anandapet,guntur,522002
- Nationality:Indian

- Technical Skills:
    1. computer skills
    2. programming languages eg: c,python,java
    3. web development
- Problem-solving Skills:
    1. critical thinking
    2. creativity
- Hobbies:
    1. listening to music
    2. playing cricket,kabaddi
    3. watching movies

Courses:

I have completed courses in machine learning, front-end web development, and IoT, gaining practical skills and a strong foundation in these areas. In machine learning, I acquired knowledge and hands-on experience in algorithms, data analysis, and predictive modeling. The front-end web development course equipped me with the ability to design and create user-friendly websites using HTML, CSS, and JavaScript. Lastly, the IoT course provided insights into device interconnectivity, sensor networks, and data processing. With this diverse skill set, I am prepared to contribute to projects involving machine learning, front-end development, and IoT.

Projects:

I completed a project in IoT where I designed and implemented a Bluetooth controlling system. The objective was to create a user-friendly mobile application that could remotely control various devices using Bluetooth technology. I researched and selected appropriate hardware components, developed the mobile app, and established a seamless connection between the app and the IoT devices. This project enhanced my understanding of IoT principles and improved my skills in hardware integration, mobile app development, and wireless communication.

PROJECTS:

I have successfully completed several HTML and CSS projects, showcasing my skills and creativity in web development...

Travel Blog

I recently designed and developed a captivating travel blog using HTML and CSS, incorporating stunning visuals, responsive layouts, and intuitive navigation to create an immersive and engaging user experience.

Event Invitation

For an event invitation project, I crafted an elegant and visually appealing HTML and CSS design that effectively conveyed the event's theme, including interactive elements, stylish typography, and a cohesive color scheme to captivate recipients and encourage their attendance.
